

A support program for patients and caregivers

We're dedicated to providing assistance and resources to you and your caregivers for Karyopharm medications. The KaryForward program is designed to help you every step of the way, so you can focus on moving forward with your life.

INSURANCE COVERAGE*

If you find the insurance process confusing, you're not alone.

KaryForward will support you in navigating this complex system by:

- Helping you understand your insurance benefits and coverage
- Providing support with claims and insurance appeals
- Accessing treatment with Karyopharm medications if there are unexpected delays or interruptions in coverage

FINANCIAL ASSISTANCE*

We understand that prescriptions can sometimes be costly.

KaryForward can help you with the cost of Karyopharm medications.

If eligible, you may be able to:

- Qualify for the Copay Program and pay as little as \$5 for each prescription, OR
- Qualify to receive Karyopharm medications at no cost to you

If you don't meet the eligibility criteria, KaryForward may be able to help find you alternative sources of coverage.

SUPPORT

We believe every person deserves expert, thoughtful support.

KaryForward offers 1:1 personalized support from licensed nurses with experience in patient education. Our KARE team can help by:

- Providing additional education regarding Karyopharm medications
- Highlighting what to expect when taking Karyopharm medications
- Offering support when talking to healthcare providers about your treatment journey

Speak to your healthcare provider for any questions related to treatment decisions.

*All programs and support are subject to eligibility criteria.

Ask your doctor or nurse to enroll you in KaryForward today.

The first steps to getting started in the KaryForward support program are enrollment and consent. Work with your healthcare provider to complete and submit the enrollment form.
